# INDEX

## A

- Accession examination, 2-4
- Acrylic repairs, 8-25
  - denture base repairs, 8-25
  - denture tooth repairs, 8-27
- Additional dental treatment forms, 2-25
  - Consultation Sheet, SF513, 2-25
- Air polishing unit, 3-7
- Alveolar Osteitis, 5-5
- Alveoloplasty, 5-4
- Amalgam restorations, 4-2
- Anatomical landmarks, 1-38
- Anesthetic, local, 4-19
- Antemortem dental examination, 10-18
  - computer support, 10-18
- Aspirating syringe, 4-7
- Aspirating syringe needle, 4-7
- Assembling matrices, 4-13
- Assisting in dental surgery, 5-20
  - circulating assistant, 5-20
  - scrub assistant, 5-20
- Automatic film processors, 1-27
  - with daylight loaders, 1-27
  - without daylight loaders, 1-27

## B

- Basic dental procedures, 4-19
- Basic life support, 9-3
  - CPR course certifications, 9-3
  - oxygen, use of, 9-4
  - resuscitating devices, 9-3
- Biopsy, 5-4
- Bisecting-angle technique, 1-14, 1-23
  - guidelines, 1-21

## C

- Calculus removal, 3-12
  - cement and insulating base instruments, 4-6
- Cast fabricating, 8-17
  - impression, 8-17
  - materials and mixing, 8-17
  - preparing to pour impressions, 8-17
- Cast trimming, 8-19
  - preliminary steps, 8-19
  - trimming, 8-19
- Cavity preparation, 4-23

- Cement and insulating base instruments, 4-6
- Charting, general, 2-6
- Charting markings, 2-6, 2-9
  - abbreviations/acronyms, 2-6
  - general, 2-6
- Circulating assistant, 5-20
- Composite resin instruments, 4-5
- Comprehensive examination, Type 1, 2-3
- Computer Assisted Postmortem Identification (CAPMI), 10-18
- Consulation Sheet, SF513, 2-25
- Current status form, 2-19
- Custom impression trays, 8-20
  - fabricating a tray with spacers, 8-22
  - spacers, 8-20
  - trays without spacers, 8-21
- Cutting instruments used in dental surgery, 5-9

## D

- Darkroom procedures, 1-29
- Dental classifications, 2-4
  - class 1, 2-6
  - class 2, 2-6
  - class 3, 2-6
  - class 4, 2-6
- Dental examinations, 2-1
  - examination duties, 2-21
  - patient preparation, 2-1
  - pre-examination duties, 2-1
- Dental floss, use of, 3-17
- Dental Exam Form (EZ603), 2-21
  - completing the back, 2-22
- Dental Exam Form (EZ603A), 2-22
- Dental identification, 10-5
  - classification, 10-10
  - principles, 10-7
  - problems, 10-7
  - radiographic comparison, 10-8
  - why dental identification works, 10-5
- Dental radiology, 1-1
- Dental X-ray machines, 1-3
  - control panel, 1-4
  - cylinder, 1-3
  - machine operation, 1-5
  - operational check, 1-4
  - securing the machine, 1-5
  - tubehead, 1-3
  - user maintenance, 1-6

Dentifrice, 3-18  
Designations, charting, and abbreviations, 2-6  
DTR infection control, 8-35

## E

Electrosurgery apparatus, 6-9  
Elevators, surgical, 5-10  
Emergencies, DTR, 9-1  
    emergency response team, 9-2  
    preventing, 9-1  
    vital signs, 9-1  
Emergencies, other, 9-4  
    anaphylatic shock, 9-6  
    angina pectoris, 9-4  
    asthma attack, 9-7  
    hyperventilation, 9-7  
    hypoglycemia, 9-6  
    seizures, 9-7  
    shock, 9-4  
    syncope, 9-5  
Endodontic procedures, 7-3  
    apicoectomy and periapical curettage, 7-4  
    bleaching, 7-4  
    incision and drainage, 7-4  
    pulp capping, 7-3  
    pulpotomy and pulpectomy, 7-3  
    retrograde filling, 7-4  
    root amputations, 7-4  
    root canal therapy, 7-4  
Endodontics, 7-1  
    accessories, 7-6  
    anesthesia, 7-11  
    apicoectomy, 7-4, 7-14  
    appointments, 7-5  
    bleaching, 7-4  
    canal cleansing and shaping, 7-13  
    causes, 7-1  
    diagnosis, 7-1  
    function, 7-1  
    incision and drainage, 7-4  
    instruments, 7-6  
    irrigation, 7-12  
    isolation, 7-11  
    materials, 7-5  
    medications, 7-13  
    periapical curettage, 7-4  
    pulp capping, 7-3  
    pulp removal, 7-12  
    pulpotomy and pulpectomy, 7-3  
    retrograde filling, 7-4  
    root amputations, 7-4  
    root canal filling, 7-14  
    root canal therapy, 7-4

Endodontic therapy, 7-11  
    anesthesia, 7-11  
    apicoectomy, 7-14  
    canal cleansing and shaping, 7-13  
    isolation, 7-11  
    irrigation, 7-12  
    medications, 7-13  
    opening the pulp and canals, 7-12  
    removing the pulp, 7-12  
    root canal filling, 7-14  
Equipment preparation, 2-2  
    dental chair, 2-2  
Examination and informed consent, surgery, 5-1  
Examination duties, 2-2  
Examination types, 2-3  
    antemortem, dental, 10-18  
    antemortem/postmortem, records comparison, 10-18  
    comprehensive examination, Type 1, 2-3  
    oral examination, Type 2, 2-3  
    other examination, Type 3, 2-3  
    postmortem examination, 10-15  
    screening evaluation, Type 4, 2-4  
Exostosis, 5-4  
Explorer, 3-10  
Exposure factors, film alignment, variations, 1-14

## F

Faulty radiographs, 1-34  
Film positioning devices, 1-26  
Film processing, 1-29  
    automatic processing, 1-29  
    darkroom procedures, 1-29  
    faulty radiographs, 1-34  
    film viewers, 1-36  
    mounting radiographs, 1-36  
    safety precautions, 1-29  
Finger rest, 3-10  
Fixed prosthetics, 8-1  
    artificial crowns, 8-2  
    inlay, 8-1  
    insertion, 8-32  
    interim fixed partial denture, 8-4  
    onlays, 8-1  
    partial denture, 8-2  
    procedures, 8-29  
    resin-bonded fixed partial denture, 8-4  
    splints, 8-4  
Foreign body removals, 5-5  
Four-handed dentistry, 4-15  
    zones and positions, 4-15  
Forceps, tooth extraction, 5-13

- Forensic dentistry, 10-1
  - equipment, supplies, facilities, 10-21
